Portable DVD Hold Down

A Tight Fit Thwarts Thieves Yet Allows Customers to Test Product Features

Go ahead; press Play and hit Rewind. The fun features customers love to touch on new products are at their fingertips with the DVD Hold Down. Helping to promote a hands-on approach to consumer electronics Protex makes the “look but don’t touch” era obsolete. The Portable DVD Hold Down provides ultimate security to keep your portable players on the display.

Equipped with an adjustable sliding base assembly, front sliding clamp and locking shaft, the unit offers maximum versatility to accommodate a wide range of DVD player sizes. The Portable DVD Hold Down leaves enough room for customer interaction which helps to drive sales.
